Allied Trades Went Out Yesterday and Struggle Begins in Earnest.

night had settled down to what promises to be a long, bitter fight.

As has been threatened for some time, the ailled trades employed in the packing industry at Chicago quit work when called on to-day to assist the striking butchers in their efforts to bring the packers to terms. In several instances the men did not, wait for the official notification from their leaders in the strike, but threw down their tools and quit work of their own voiltion. At 6 o'clock to-night the statement was made by Michael Donnelly, president of the Butchers' Union, that every union man employed at the stock-yards, with the exception of teamsters and stationary engineers, had reaponded to orders for a general sympathic strike. The engineers, he declared, would join the strikers to-morrow morning, and unless there was a speedy settlement of the difficulty, he said, the teamsters would undoubtedly ioin in the struggle soon. Both Sides Satisfied..

Both sides to the controversy declared to-night that they were perfectly satisfied with the present state of affairs, and that they were willing to make it a fight to a finish to determine who shall dictate the terms of settlement.

According to the packers, the general strike to-day was a failure, it being asserted by them that not more than half the members of the allied trades quit work when officially called out by the leaders this morning. The further statement was made by the packers that should all the union men decide to join the strikers it would make little difference to the employers, as they had sufficient resources to contest the ground for an indefinite period.

New Phase of the Situation.

A new phase of the strike situation eveloped late this afterneon when notice was given by the unions to the independent packers at the stock yards that heir men would not be allowed to handle nimals which had been handled in any by non-union men. It is necessary or these independent concerns to take it heir live stock into the yards over into Slock Yards run-ways, where the lock must be handled by non-union men, the union men employed by the tock Yards Company in this line of work were among the employes who joined he sympathetic strike to-day. The ultinatum of the union leaves the independent packers on alternative but to reserve their live stock directly from the country or to close business entirely. A settling of the independent packers was

Refused to Consider New Proposition.

Immediately on the return of the teamsters' committee to union head-quarters, they entered into a conference with the representatives of the allied trades to consider a proposal which had been submitted to the unions by the packers. In the meeting between the teamsters and the packers, the packers offered to change the time of the reinstaling all the strikers from forty-five to thirty-five days. They made no concessions other than this, and this proposal was submitted to the allied trades committee.

President Donnelly, of the Butchers' Union, however, refused to consider the

President Donnelly, of the Butchera Union, however, refused to consider the proposal, and all hopes of an immediate settlement was lost. President Golden, of the Teamsters' Union, atrongly urged that the proposal be considered, and that another effort for a settlement be made. The sentiment of the meeting was overwhelmingly against him, and the committee adjourned without intending to arrange any more meetings with the packers.

After-falling in the peace negotiations, President Golden, of the Tramsters' Union, advised the members of the International Committee of the Tramsters' Union that his efforts to bring about peace to-day had been unsuccessful, and asked their-sanction for a sympathic strike of the packing trade teamsters.

Women Badly Hurt.

(By Associated Press).

CHICAGO, ILL., July 25.—An exciting encounter, in which about twenty men and women took part, occurred to-day on Ashland Avenue, near the stock yards. Mary Zlatrick had reproached her husband for not returning to work, where-upon neighbors took sides and the result was a struggle, in which Mra, Zlatrick and three men were hadly hurt. Her husband escaped injury. Policemen stopped the fight, but made no arrests. Zlatrick is still on strike.

Later Mra, Anna Tickie, who has three sons on strike, was severely beaten and robbed of a small amount of money. One son, Leopold, was arrested in connection with the attack.

FORT WORTH, TEXAS, July 25.—Plekets have been maintained as usual at the packing plants, but in spite of this the packers have taken on 1,500 new workmen. Receipts at the yards were about normal, and the purchases by packers were in the same proportion. The only distraction of the day was caused by a striker picket trying to prevent a seeker after work from going to the plants. A special officer knocked the picket from a bridge for interfering with the would-be workman. No rioting will be permitted by the sheriff.

> Another Effort Made to Move Him. But He Remains Firm.

(fly Associated Press.)

NEW YORK, July 25.—A very determined effort was made to-night to make Senator Gorman chairman of the Democratic National Committee. After several conferences among Democratic leaders, former Senator Jones and William F. Sheehan called on Senator Gorman at his room and urged him to reconsider his determination not to accept the chairmanship. The Maryland senator remained firm and suggested that Mr. Sheehan take the place if it was necessary to have an Eastern man for the position. Mr. Sheehan stated to Mr. Gorman, and others to whom the suggestion was communicated, that it was impossible for him to take the place.

The impression prevails among the strongest supporters of Mr. Taggart, that notwitheanding the efforts made to-night, he will be elected.

pleats to open over the bost, thus any fording a nice stylish roundness to the figure.

If one desires the material might be opened and silk or material of contrasting color be inserted between the pleats. The back of the walst is simply laid in inverted box-pleats, the line tapering from the broad shoulder to walst, another point in favor of those who have to look to the design to "make the figure."

The same idea of pleats is carried out in the sleeve which is bishon in shaping. The walst opens in front under the pleat, and the only decoration is the stitching and bit of embroidery, which outlines the pleats. Such a design made up in dark blue or red taffeta, Louisine on nongee, sittened with white or black would make an exceedingly neat walst and at very little expense, too. Mercerized cotton, woolen or silk is equally sultable to the mode.
